

Drumroll please! Our 2021 Investees Are...

	<p>▶ Yasmine Mustafa Founder & CEO</p>		<p>Roar For Good. Sometimes entrepreneurs need to pivot to land on the exact opportunity that will lead to success and positive impact. With their new product—Always On— this company was able to do just that. Our second investment into Roar will help them expand tech-based safety products and services to protect vulnerable cleaning staff in the hotel and healthcare industries.</p>
	<p>▶ Worker-owned Co-op</p>		<p>The Pecan Milk Co-op. This young, Atlanta-based cooperative is operated by worker-owners who are Black, vegan, and identify as LGBTQ. It offers four milks – pecan, oat, hemp, and sunflower – made of ingredients sourced locally from Black Georgian farmers and distributed locally in reusable glass bottles.</p>
	<p>▶ Sandra Kahn and David Leventhal Co-Founders</p>		<p>Playa Viva. One of our new investments focused on making tourism gentler on the earth! This super green vacation destination on the Pacific Coast of Mexico takes sustainability and regenerative practices to a new level in its gorgeous setting and community-centered offerings.</p>
	<p>▶ Raj Vable Founder & CEO</p>		<p>Young Mt. Tea. Founder, Raj, was reared in Michigan and came to know India when first visiting his grandmother’s ancestral home. He was inspired to launch this company, which assists small farmers in forming tea co-ops and in securing Organic and Fair Trade Certifications. They now touch the lives of 4,000 Organic – and a growing number of Fair Trade – farmers.</p>
	<p>▶ Rachel Faller Founder & CEO</p>		<p>Tonle. At Tonle, they see fashion differently - from the way it’s made to the way it’s worn. We’ve been on a long journey with this company to help them build a zero-waste, ethically-made fashion brand. We were proud to renew those efforts with a new investment this year.</p>
	<p>▶ Faez Rana Co-Founder & CEO</p>		<p>Prep To Your Door. Faez Rana leads this closed loop food delivery company that provides plant-based, Certified Organic offerings, sparing our landfills by packaging food in returnable jars and bags. Currently serving Austin, TX, they will expand throughout Texas before going nationwide.</p>
	<p>▶ Evan Delahanty Founder & CEO</p>		<p>Peaceful Fruits. This Certified B Corp manufactures organic fruit leathers and other confections using Fair Trade Certified chocolate and fruit from sourced Amazon farmers – rainforest advocates whom the founder met while in the Peace Corp. They also hire staff who are differently-abled at their Ohio plant.</p>

▶ **Jake Hauptert**

Co-Founder & CEO

Transformational Travel Council. The courses, membership groups, and literature offered by this innovative new company help unlock travel's potential to transform individuals, communities, and societies from the inside out by creating more conscious travelers and destinations.

▶ **Sophi Tranchnell**

CEO

Divine Chocolate. This Certified B Corp produces amazing chocolate and has given partial ownership to the Fair Trade cooperative in Ghana from which it sources cocoa. We have a long-term relationship with Divine and invested again to help it expand.

Among the groundbreaking businesses in our portfolio is Untours.

We are the proud owners of the World's First B Corp. Travel is back, Untourists are back in Europe, and 2022 is selling! Plan your Untour vacation or European river or canal cruise now.

In the Pipeline...

We have a number of businesses coming down the pike that we would love to fund. As repayments are made from our existing portfolio, we redeploy those dollars as quickly as possible. These are just a few of the world-changing businesses that are waiting for an investment from us. Your donations help us jump in to support these businesses even more quickly!

▶ **Melissa Lee**

Founder & CEO

The Green Program. We hope to make our 2nd investment into this groundbreaking company. TGP educates and empowers future sustainability leaders through innovative models of experiential travel, education, and adventure. Our investment will help them rebound from the impact of Covid to create the next generation of leaders who will solve the climate crisis.

▶ **Jenny Kassan and Michelle Thimesch**

Co-Founders

Opportunity Main Street. By creating a physical hub that links entrepreneurs of color, investors, and tourists in Baltimore, this new project will be a national example of how to drive community transformation. Our loan would help build out a commercial kitchen for food entrepreneurs, storefront retail space, community event rooms, and a number of Airbnb-style rentals.

▶ **Marisol Lazo-Flores**

Managing Director

Main Street Phoenix. This groundbreaking new project will purchase restaurants that are at risk of closing due to impacts from Covid and transform them into worker-owned coops. Restaurant staff, traditionally amongst the lowest paid workers in the labor market, will receive higher wages, benefits, and ownership stakes.
